

# Rules of Karma

These are the first Rules of Karma. They will be valid for the first month of activity of the Karma Platform. We will most likely change them thereafter.

## 1 Karma Balance

1. When a Resident begins their lease, they can receive one Karma Balance.
2. All new Karma Balances will contain 1000 K.
3. Karma Balances must remain positive and current.

## 2 Sending Karma

1. You may transfer all or part of the Karma in your Karma Balance to the Karma Balance of any Resident.
2. Transactions may mention a comment describing the motive of the transaction.
3. Transactions are made public on the Karma Platform.
4. The transaction comment is public by default, but can be recorded privately, therefore making only the recipient, expeditor and amount public.

## 3 Claiming Karma

1. You may claim back Karma from a Resident, up to the amount that you have given them in the current calendar month.
